

# The Lazy Developer's Toolkit

Brogan Avery

April 25, 2021

# Real World Problem

- I get tired of writing repetitive code
- I lose track of things when I am making a new project
- I lose track of time when creating projects
- Sometimes code stresses me out

# Main Tools/Features of Toolkit

- Shortcuts to avoid repetitive code
- A tool to build my coding skills
- A tool that relies on an Arduino microcontroller
- A tool that helps with project management
- A tool that provides a relaxing break from writing code
- A code that contains various helpful resources
